Vista Toolbar Icons

Toolbar icons create the first impression of your website and software. An icon is the first symbol a user sees visiting an internet site or clicking a button to start any application. Choosing the right symbol and design for an icon is crucial in delivering the message on the image and purpose of your software and website. Now you can make you website more attractive and enhance software functionality with effective high-quality icons from our collection of Vista Toolbar Icons.

Number of icons: 278
